## Update: Quest Tool Version 3.3.12

2019-09-08 13:05

**The Quest Tool Version 3.3.12 is available for all Quest Tools released on September 7<sup>th</sup>, 2019!**

All our available assessment tools (SPiCE, AutomotiveSPiCE, ISO20000, ISO27000 etc.) have been updated!

Version 3.3.12 is 100% backward compatible to our previous releases, version 3.2.x and also to 3.0.3 (without Advanced Practices). The feature for multiple instances is compatible with V3.3.8.

Highlights of the new release are:

- SPiCE for **Mechanical Engineering** (MEC 1.5) is included in English and German
- **Search** function for PAM content, assessment notes and documents list
- VDA **LiSA** and **SuSA** export
- **Completeness check**
- Additional **Excel Exports** with **BP/GP indicator rating table**
