News and Updates

Update: Quest Tool Version 3.3.12

2019-09-08 13:05

The Quest Tool Version 3.3.12 is available for all Quest Tools released on September 7th, 2019!

All our available assessment tools (SPiCE, AutomotiveSPiCE, ISO20000, ISO27000 etc.) have been updated!

Version 3.3.12 is 100% backward compatible to our previous releases, version 3.2.x and also to 3.0.3 (without Advanced Practices). The feature for multiple instances is compatible with V3.3.8.

Highlights of the new release are:

- SPiCE for Mechanical Engineering (MEC 1.5) is included in English and German
- Search function for PAM content, assessment notes and documents list
- VDA LiSA and SuSA export
- Completeness check
- Additional Excel Exports with BP/GP indicator rating table
