## Update: Quest Tool Version 3.3.14

2020-01-05 20:33

**The Quest Tool Version 3.3.14 is available for all Quest Tools released on January 5<sup>th</sup>, 2020!**

All our available assessment tools (SPiCE, AutomotiveSPiCE, ISO20000, ISO27000 etc.) have been updated!

Version 3.3.14 is 100% backward compatible to our previous releases, version 3.2.x and also to 3.0.3 (without Advanced Practices). The feature for multiple instances is compatible with V3.3.8.

Highlights of the new release are:

- SPiCE for **Hardware Engineering** (HWE 1.0) is included in English and German
- Compatibility issues between rule-checker and multiple-instances is solved
