News and Updates

Update: Quest Tool Version 3.3.14

2020-01-05 20:33

The Quest Tool Version 3.3.14 is available for all Quest Tools released on January 5th, 2020!

All our available assessment tools (SPiCE, AutomotiveSPiCE, ISO20000, ISO27000 etc.) have been updated!

Version 3.3.14 is 100% backward compatible to our previous releases, version 3.2.x and also to 3.0.3 (without Advanced Practices). The feature for multiple instances is compatible with V3.3.8.

Highlights of the new release are:

- SPiCE for **Hardware Engineering** (HWE 1.0) is included in English and German
- Compatibility issues between rule-checker and multiple-instances is solved
